Suva Boosts the Health of its Storage Architecture

DISCOVER HOW THEY DID IT

The Swiss National Accident Insurance Fund (Suva)

Has over **4,200** employees

Insures more than **2 million** full-time employees
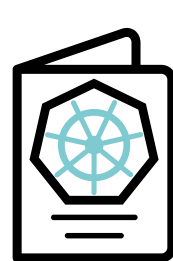

Covers **130,000** companies

Handles almost **480,000** claims per year

The Challenge

Build an architecture to digitize and automate manual processes

Support new applications and IT services

**Improve** customer service by responding to claims faster

> By selecting Hitachi VSP 5500, we can adopt the latest technical innovations with a clear path for easy expansion over the next five years. We were highly impressed by the performance of this new solution to ensure efficient business operations.
>
> – Christian Arn
> Head of IT Infrastructure, Suva

The Solution

Flexible scale-out architecture and data protection

VSP 5500 & G600
Hitachi VSP 5500 and G600

Global Active Device

HCP
Hitachi Content Platform

HNAS
Hitachi NAS Platform 4060

The Outcome

Accelerated business decisions and operations

Faster data processing enables insights and decision-making

**Improved** customer service through digitization

Better productivity

Optimized performance of databases and applications
